Volume 12 • Issue 5 Published Monthly Except June, July & August **January, 2008**

This publication is printed by the Central Ohio Section of ASCE - 2600 Corporate Exchange Dr., Ste. 165 • Columbus, OH 43231

JANUARY LUNCHEON MEETING

- Date:** Thursday, January 17, 2008
- Time:** 11:30 Registration
Noon Lunch and Program
- Place:** Buckeye Hall of Fame Cafe
1421 Olentangy River Road, Columbus
- Speaker:** Chris King, AIA – 360 Architecture
- Topic:** Huntington Park – The new stadium for Columbus Clippers, the Columbus AAA baseball team currently affiliated with the Washington Nationals major league team.
- Groundbreaking for the new stadium was August 2, 2007 and is planned for completion for the 2009 season. Designed by 360 Architecture, the 10,000-seat stadium is part of a \$56 million project. Huntington Park will be located at the corner of Neil Avenue and Nationwide Boulevard in the Arena District and will replace the Clipper's current home, Cooper Stadium.
- CPD Hours:** 1 Continuing Professional Development (CPD) hour certificate will be issued at the conclusion of the program.
- Cost:** \$20 ASCE Members and Guests (\$15 Life Members and \$10 Students)
- Menu:** Buffet style including mixed salad greens, pasta salad, fresh fruit, lasagna, lemon rosemary chicken, garlic mashed redskin potatoes, green beans almondine, rolls, coffee and tea with assorted desserts.
- Reservations:** Please e-mail reservations to Carrie Knaub at cknaub@thomas-marker.com or by phone 937-644-2160 by 3:00 p.m. Monday, January 14, 2008.

2008 ASCE Spring Technical Seminar Announced

The ASCE Technical Seminar Topic for 2008 is Public Involvement / Facilitation and will include speakers from FMSM Engineers, ODNR-Division of Water and ODOT as of this printing.

The date of the seminar is April 30, 2008 and will be located at the Crowne Plaza Hotel – 6500 Doubletree Avenue, Columbus, OH (east of intersection of Busch Blvd and Schrock Road). Details on the times and cost as well as the continuing education credits (PDHs) to be finalized shortly. If you are interested in becoming a sponsor for this seminar, contact Julie Pickering at 614-846-1400.

Check the Central Ohio ASCE website at www.centralohioasce.com and upcoming newsletters for more information.

Civil Engineers – Designers and Builders of the Quality of Life

— Letter From the President —

I just received word from ASCE National that the Central Ohio Section was awarded the Outstanding Section of the Year Award. Congratulations and thanks to all that have helped to make our section what it is today.

I would like to thank again Ron Trivisonno with ODOT for talking about SWPPP's and ODOT Supplemental Specification 832. This appeared to be a timely subject.

Our talk this month will feature the Huntington Park Project on January 17th at the Buckeye Hall of Fame Café. Hope to see you there.

Very truly yours
 Steve Loskota, P.E.

Ohio Construction Conference February 26, 2008

Change/Collaboration/Communication: the Three Cs of Commercial Construction

The Ohio Construction Conference is a collaborative effort of industry leaders coming together to share best practices, update industry forecasts, examine trends and design the future. Anyone who does business with the owner/facility management community, design professional community, contractor/subcontractor community, or supplier/service provider community should consider attending. ASCE is a Partner Association again for this event.

National experts to present issues and initiatives that will change the way YOU do business... Consensus DOCS and AIA document updates, plus the new AIA Digital Practice Documents · building information modeling · significant shifts in our industry's business paradigm ... and more!

WHEN: Tuesday, Feb. 26, 2008, 7 a.m. - 7 p.m.

WHO: Industry leaders from the extended commercial construction community – owners and facility managers, architects and engineers, and contractors and subcontractors – should plan to attend!

WHERE: COSI, 333 W. Broad St., Columbus, OH 43215

COST: Your \$150 registration fee includes full Conference access for the entire day including: all plenary sessions, your choice of break-out sessions and all meals and refreshment breaks throughout the day. That's 12 full hours of programming and networking! For questions or more information contact Lynda Pomeroy at the BX, 614/486-9521.

'Tune In' to ASCE on Local Radio

Central Ohio ASCE began running short 15 second spots on local radio in November and will continue through early February focusing on "Engineers Week" (February 17 to 23, 2008). Listed below are the time spots that will run on WOSU in 2008 mixed in the morning and evening, to promote Civil Engineering. Some times can only be approximate or tentative simply because they might be during a live newscast and therefore the spot time would be pushed back a minute or two or it may run in the next available slot.

If you have any suggestions for some short messages, please contact Dave Prichard at 614-519-4819.

MEMBERS ON THE MOVE

Peter Narsavage, P.E. is the new State Construction Geotechnical Engineer for the Ohio Department of Transportation.

In this position, Peter is the contact person in Central Office for all geotechnical issues that arise during construction on ODOT projects; including issues with embankments, landslides, MSE walls, foundations, and tiebacks. Peter's other responsibilities include coordinating all of ODOT's earthwork related specifications, helping ODOT implement new geotechnical technology and practices in construction projects, and training inspectors and engineers.

Peter is moving to this position from the Office of Structural Engineering where he served as the Foundation Engineering Coordinator. Prior to that, Peter worked as a geotechnical engineer for DLZ Ohio in Columbus.

Peter's contact information can be found on ODOT's construction website: <http://www.dot.state.oh.us/construction/OCA/>

The 21st-Century Engineer: A Proposal for Engineering Education Reform

Patricia Galloway vividly paints the new global landscape where megaprojects, sustainability, infrastructure security and multicultural work teams pose challenges for which engineers may be unprepared. She lays out non-technical areas in which engineers must become proficient including globalization, ethics, diversity and leadership. Galloway contends that the existing system for educating engineers must change, and she proposes a new master's degree in professional engineering management.
