

How Financial Success Happens

Research has shown that the vast majority of millionaires are fastidious planners, budgeters, and investors. They set a goal, make a plan to reach that goal, then work hard to make it happen.

We want to show you how to develop a sound financial strategy — one that covers all the financial bases, from insurance to investing to estate conservation.

At this educational presentation, you will learn:

- **A six-step plan for financial success**
- **How to estimate the amount of life insurance you really need**
- **Three critical components of a sound investment plan**
- **Steps you can take to help manage taxes**
- **How to calculate how much money you'll need to retire**
- **Important estate conservation strategies**

You'll receive information that will help you take a good look at your personal situation and evaluate your options

Financial Management
